

# Customizable Photovoltaics for Visionary Architecture and Product Design

**Save the date !**

Contact: *Idoia Muñoz*

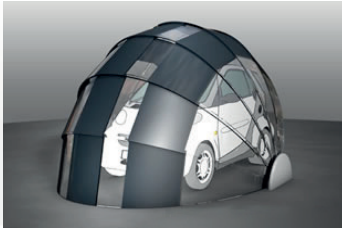

*idoia@gaia.es* | [www.solar-design.eu](http://www.solar-design.eu)

**Wednesday 10th of June  
2015**

From 13:30 pm to 17:30 pm

**At Intersolar Europe**

<https://www.intersolar.de/en/home.html>

**Solar Design** (Grant Agreement Nr. 310220)  
is a FP7 funded project (2013-2015) that  
addresses the obstacles of  
**thin-film integration in products and  
buildings** by the development of novel  
solar cell materials, manufacturing proces-  
ses and supportive actions to improve  
communication in the **design value chain**.

The novel PV material are demonstrated  
in design driven **prototypes**.

If you want to join  
SolarDesign Workshop, you  
can find us at  
**ICM - International Congress  
Center München, Room 2**
